

NS9521

CMS Station

Trend Micro
IoT Security

Smart VCA

LPR

Versatile and Powerful In One Equipment

VAST 2-inside CMS Station
Expandable up to
64 channels

**Great video decoding
capability supporting
VIVOTEK MA/MS
Cameras series**

**Built-in free Data Magnet
license for 3rd party
device integration**

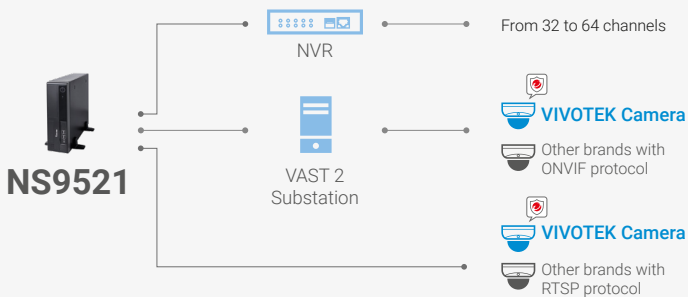

**Cybersecurity
solution management**

**Smart video content
analysis integration**

**VIVOTEK LPR
solutions integration**

In addition to the aforementioned benefits. **NS9521** also functions as a **Network Video Recorder**, a **Display Station** and a **Central Management System (CMS)**.

Central Management System (CMS)

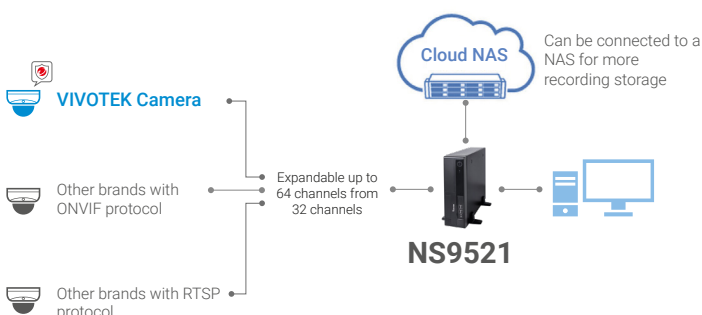

- Add-on Solution: Failover, Transportation, Transaction and Data Magnet
- Functions as a central management system (CMS) for multiple VIVOTEK substations as NVR and VAST2 substation
- Up to 400 Mbps of bandwidth

- Able to view live video or recorded video when:
Used as a display station for additional cameras and recorders
- Individual video display output x2
- Three built-in monitor outputs, the other one is colon
- Video recording throughput, up to 400 Mbps of bandwidth
- Multiple on-screen display modes
Equal: 1x1, 2x2, 3x3, 4x4, 5x5, 6x6, 7x7, 8x8
Panorama: 1P+6, 2P, 2P+3, 3P
Enfocados: 1+12, 1+16, 1+3, 1+5, 1+7, 1+9, 2+8
Vertical: 1V+6, 2V+2, 2V+3, 3V, 3V+4, 4V, 4V+4, 5V

Display Station

Network Video Recorder

- 32 video channels, expandable up to 64 channels
- Built-in VIVOTEK CMS: VAST 2
- Smart Search II: Powerful search for Smart Motion Detection
- Smart VCA event: AI-based video analysis event supported
- VIVOTEK LPR Solutions integration
- Support Fisheye cameras with multiple dewarping modes
- Video evidence and export protection
